

Eastlea Primary Curriculum Vision Statement

Our curriculum provides stimulating experiences within the classroom, through the lessons, activities, visits and themed days/weeks which are planned to bring the curriculum to life and enrich learning.

We focus on the basic skills of reading, writing and mathematics to enable our children to access a broad and balanced curriculum. We aim to give children as many experiences as possible and teach in an engaging and interesting way. We want children at Eastlea to feel safe and aim to ensure that they are happy in school, working hard to help them to enjoy their learning.

Based on our knowledge of the children at Eastlea, staff work hard to provide opportunities for skills to be applied in contexts across the curriculum. Our aim is to ensure that the Eastlea curriculum meets children's needs and allows pupils to make progress as they move through the school. Staff adapt the curriculum to give pupils meaningful experiences, such as educational visits and enrichment opportunities which develop enthusiasm for learning and create memories.

Eastlea is an inclusive school. We aim to meet the needs of all the pupils in our care including our vulnerable learners through quality first teaching and targeted support and interventions where needed. Staff include lots of opportunities to encourage discussion and develop oral language. All pupils are given the opportunity to reason and problem solve across the curriculum.

We aim to develop pupils' independence and create life-long learners. Staff strive to raise children's aspirations and prepare them for the next stage in their education and for life in Britain today.
